

Ghassan Salah

Amman, Jordan | +962 79 8882876 | gosalah82@gmail.com | www.linkedin.com/in/g-salah

Nationality: Jordanian

Results-driven IT Systems and Infrastructure Specialist with over 15 years of experience managing high-availability networks, automating administration workflows, leveraging virtualized sandboxes (Hyper-V, VMware Workstation Pro) for solution testing, and optimizing production environments. Uniquely cross-qualified in core systems administration (Active Directory, Security, Lifecycle Management) and CAD platform deployment/integration (AutoCAD, Revit, Inventor). Proven track record of optimizing network operations, managing full asset lifecycles, and driving operational efficiency across production networks.

CORE TECHNICAL SKILLS

- **Systems Administration and Identity Management:** Active Directory (AD DS), Group Policy (GPOs), user profiles, access permissions, identity management, and core network services (DNS, DHCP)
- **Virtualization & Staging:** Hyper-V, VMware Workstation Pro, isolated sandbox creation, VM snapshotting, and solution validation.
- **Network Infrastructure:** High-availability networks, TCP/IP configurations, static routing, and network uptime optimization.
- **Asset Lifecycle and License Compliance:** End-to-end IT hardware procurement, software asset management, licensing compliance, and FlexLM/NLM network licensing servers.
- **Automation and Scripting:** Systems maintenance and administrative workflow automation utilizing PowerShell, VBScript, and third-party management and deployment tools.
- **CAD and Design Workflow Integration:** Specialized technical administration, power-user support, and deployment for heavy design platforms (AutoCAD, Revit, Inventor).
- **Hardware and Workstation Optimization:** Proactive preventative maintenance scheduling, BIOS/UEFI tuning, resource allocation, and workstation hardware performance tuning.

PROFESSIONAL EXPERIENCE

IT Infrastructure and Asset Manager | Gulf Aeronautics – USA LLC (Remote)

Kenosha, WI, USA | Jan 2023 – June 2026

- Administered network infrastructure, user profiles, access permissions, and security configurations using Active Directory (AD DS) and Group Policy (GPOs) for corporate users and assets.
- Directed end-to-end IT asset lifecycles, leading hardware/software procurement, license compliance audits, and system decommissioning across all department domains.
- Optimized network performance and security to ensure continuous system uptime in high-demand corporate environments.
- Developed PowerShell, VBScript scripts and utilized third-party tools to automate routine system maintenance, reducing manual admin workflows.

Systems Administrator and Design Technician | Freelance

Kingston, ON, Canada | Mar 2010 – Dec 2022

- Directed network administration, TCP/IP configurations, and static routing for a high-availability infrastructure supporting workstations and client endpoints.
- Configured high-uptime shop-floor network connectivity for CNC and production machinery.
- Deployed Hyper-V and VMware Workstation Pro sandboxes to safely test, stage, and validate software deployments and system updates prior to production rollout.
- Managed core network services (DNS, DHCP, identity management) alongside backup and disaster recovery frameworks.
- Delivered Tier 2/3 technical support, resolving application conflicts and tuning workstation hardware for high-performance design and production workflows.
- Led deployment of company software suites (AutoCAD, Revit, Inventor) and configured FlexLM/NLM network licensing servers.

Technical Support Specialist and Design Technician | Blueprint Designs (Remote)

Sterling Heights, MI, USA | May 2003 – Feb 2010

- Provided comprehensive technical support across design teams, resolving critical application errors, and optimizing specialized workstation performance.
- Prepared space studies and design solutions.
- Prepared construction documents: Designed and drafted floor plans, sections and elevations. Generated 3D models and 3D renderings.
- Designed custom furniture and millwork and provided shop drawings and details

CERTIFICATIONS

IT Infrastructure, Security and Cloud (CertiPort):

- Information Technology Specialist (ITS): Networking.
- Information Technology Specialist (ITS): Network Security.
- Information Technology Specialist (ITS): Device Configuration and Management.

CAD and Design Systems (CertiPort / Autodesk):

- Certified Professional (ACP): AutoCAD.
- Certified User (ACU): AutoCAD.
- Certified User (ACU): Inventor.
- Certified User (ACU): Revit Architecture.

Productivity and Tools (CertiPort / Microsoft):

- Microsoft Office Specialist (MOS) Expert: Word.
- Microsoft Office Specialist (MOS) Expert: Excel.
- Microsoft Office Specialist (MOS): PowerPoint.

Business and Professional Skills (CertiPort):

- Professional Certifications in Entrepreneurship.
- Communication Skills for Business (CSB).

LANGUAGES

English: Full Professional Proficiency (Technical, Spoken, and Written).

Arabic: Native Proficiency (Technical Documentation, Spoken, & Written).

EDUCATION

Electrical Engineering (3 Years Completed)

University of Ottawa | Ottawa, ON, Canada | 2000 – 2003

- Relevant Coursework: Digital Logic Circuit Design, Computer Architecture, Advanced Engineering Mathematics, and Analytical Problem-Solving.

International Baccalaureate (IB) Diploma

The American International School in Abu Dhabi | Abu Dhabi, UAE | 1997 – 2000

- Awarded the International Baccalaureate (IB) Diploma following a rigorous pre-university curriculum emphasizing global standards in science, mathematics, and critical thinking.
